

THE INNOVEX WAY

Since its inception in 1996, our company has served as an integral resource for project structuring, providing comprehensive solutions that bring the combined knowledge and experience of both our team and those of our partner companies.

By consciously collaborating together, all entities involved with a respective project not only benefit from it but also create a sense of community.

SERVICES

QUANTITY SURVEYING

Innovex is a company that has been helping customers in the civil engineering, construction and property sectors for many years. Recently, they have taken their services to the next level with their Quantity Surveying services.

Since quantity surveying is an important part of any building project, Innovex enables clients to have an accurate assessment of all costs associated with the work which makes the planning and budgeting process smoother.

PROJECT MANAGEMENT

Innovex provides comprehensive and tailored project management solutions that help organizations achieve their goals faster and more efficiently.

With experienced managers on board, Innovex is committed to delivering excellence and top-notch service each time.

From strategy formulation and planning to solution finding, Innovex follows a successful roadmap to success.
